

ACKERMAN PHARMA

**Your Full Range Business Development Partner in México for
Novel & Generic High-Demand Products**

WHY ACKERMAN

One-stop shop for regulatory, logistics, sales. In-market presence in Specialty Critical Care Products like Gynecology.

If we are not your ideal Sales & Marketing partner we put you in contact with ideal candidates. Generics division. Government & Private Market.

THE BEST NEW PRODUCTS FOR THE MEXICAN MARKET

Ackerman identifies and performs initial market analysis for success of any product presented.

Ackerman attends major conferences such as CPHI where new products are offered by smaller biotech/pharmaceutical companies, Medical Device manufacturers & Nutritional Supplement suppliers.

Ackerman BD Team managed by industry professionals with a cumulative +30 yrs. experience in bringing new products to market.

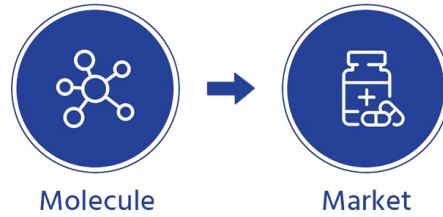

REGULATORY

500 + Medicinal Products- New Molecule, and existing; Medical Devices; Orphan Drug Dossiers; approved by Mexican Health Authority (COFEPRIS).

Ackerman in-house, dedicated, four-chemist Regulatory team to quickly obtain Marketing Authorizations once product is identified and under contract.

If necessary - ability to suggest formulations changes to adapt to local regulations and client needs; ex. such as lowering dosages for Reclassification to Supplement vs. Drug. Faster time to market.

**IMPORTS, WAREHOUSING,
INHOUSE PRIVATE LABEL
PACKAGING**

Ackerman works efficiently with Customs Agents to get product into México quickly and store in its own warehouse ready to ship to customer(s).

If you want a new product under your brand, Ackerman can import in bulk and package according to your new-label.

Ackerman can handle all logistics issues efficiently
